Shengquan Yu, Beijing Normal University

Organization Chair

Shengquan Yu, Beijing Normal University

Financial Chair

Silvia Choi, The Chinese University of Hong Kong

Local Arrangement Chair

Frances Kling, Goethe-Institut (Beijing)

Registration Chair

Jonathan Diu, The Chinese University of Hong Kong

Publication Chairs

Kat Leung, Caritas Francis Hsu College
Simon Cheung, The University of Hong Kong

Publicity Chairs

Lanqin Zheng, Beijing Normal University
Oliver Au, Open University of Hong Kong
Gary Lam, Caritas Bianchi College of Careers

Academic Liaison Chair

Wai Yin Mok, University of Alabama in Huntsville

Sponsorship Chair

Will W. K. Ma, Hong Kong Shue Yan University

Activities Chair

Siu Cheung Kong, The Hong Kong Institute of Education

Paper Submission Deadline:

30 January 2010

Call for Papers

The Organizing Committee of ICHL2010 cordially invites you to participate in the next International Conference on Hybrid Learning to be held at Beijing Normal University.

The term 'Hybrid Learning' is undoubtedly a New Frontier in Education as neither the virtual nor the physical resources alone can provide the best teaching and learning environment. Intuitively, Hybrid Learning provides a way forward for educators who are interested in helping students to learn. Educators could ultimately create learning experiences to compensate for the shortcomings of, or at least to complement, conventional face-2-face teaching. The Conference will include keynote addresses, paper presentations, and tutorial sections.

Paper Submission

Authors are invited to submit original papers reporting on research results or novel applications. ICHL 2010 covers all topics in hybrid learning including, but not limited to:

- Adaptive Learning
- Assessment Strategies for Hybrid Learning
- Computer Supported Collaborative Learning
- Content Management for Hybrid Learning
- Digital Libraries for Hybrid Learning
- Effective Content Development
- Experiences in Hybrid Learning
- Improved Flexibility of Learning Processes
- Institutional Policies
- Instructional Design Issues
- Interactive Hybrid Learning Systems
- Learning Theories
- Organizational Frameworks for Hybrid Learning
- Outcome Based Teaching and Learning
- Pedagogical and Psychological Issues
- Practices in Borderless Education
- Student Prospects

All papers should be submitted electronically in PDF format through the conference website <http://hkuspace.hku.hk/ichl2010/>. Selected technical papers will be published in the *Lecture Notes in Computer Science* (LNCS) by Springer <http://www.springer.com/computer/lncs?SGWID=0-164-0-0-0>. Papers should be prepared in 10-15 page LNCS format. Selected technology and education papers will be published in the *International Journal of Interactive Technology and Smart Education* (Emerald, UK) <http://www.emeraldinsight.com/itse.htm>.
